

Error: Distribution type is invalid for a destination company distribution

Summary:

Accounting Interface error: Error: Distribution type is invalid for a destination company distribution.

Cause:

This message is given when attempting to interface distributions to Dynamics / Great Plains.

Either the Dynamics / Great Plains database name has been renamed or the company name in CounterPoint's SQL Accounting Interface setup is incorrect.

Solution:

In **Setup/ System/ Accounting Interface** verify the following:

- The **Database or ODBC name** field name is unique and does not use the same DSN that Great Plains uses.
- The Company name is capitalized and is exactly as how it appears in Great Plains.
