How to prevent price changes during a Receiving

Summary:

How to prevent price changes during a Receiving

Is there a way to prevent users from entering a new price when performing a receiver?

Solution:

In Setup / System / Configuration / Data Dictionary - modify the **PO_RECVR_LIN** table so that column **NEW_PRC_1** is **Read Only**.

*Note: This change will affect all users who have customizations enabled in Setup / System / User Preferences.
