

Customizing RDLC forms

Summary:

How to customize .RDLC forms

How to add fields to a receipt (.rldc) in New Device Framework / Device Management

Using the RDLC receipt designer

Solution:

- Select the available section the data will be printed in on the right of the form (Header / Items / Cells /Serials / Gift Cards / SVCs / Totals / Payments / Notes / Package Tracking / Footer).

The available fields will appear on the left under the **Data** / Section that is selected.

- Click and drag the desired fields to the appropriate section / print location on the form. If the desired field is not available, please contact Support.SQL@NCR.com for assistance or to have an

enhancement request created to possibly be included in a future version.

*For additional information on customizing receipts, review the [Configuring Counterpoint v8.4 Training manual](#), pg 342 (Section 6-89).
