Image / logo requirements for .XML receipts

Summary:

Image / logo requirements for .XML receipts

Solution:

- The image must be located in the **System/ Images** folder on the server.
- The image must be a bitmap (.bmp) image.
- The bitmap should be saved as a 256 bit color file.
- The image must be a size that will fit on the receipt.
- An OPOS driver must be used when printing the form. GOPOS drivers will not print images.
