8.3.8 Error: System date is outside current calendar

Summary:

Error: System date is outside current calendar

Cause:

The current calendar in NCR Counterpoint is not in alignment with the system date of the workstation.

Solution:

One of the following solutions should resolve the problem.

- Edit the workstation's date to match *today's date*.
- Select Setup/ System/ Company. On the Main tab, change the Current Calendar value

Note: This message was removed in v8.3.9, but it is still necessary to go into Setup / System / Company and update the current calendar year.
