

Some AntiVirus applications are known to cause issues

Article Number: 1286 | Rating: Unrated | Last Updated: Mon, Nov 9, 2020 at 1:02 PM

Summary: Some Antivirus applications are known to cause issues. **Solution:** In some cases simply creating an exception to Counterpoint or a Counterpoint application will work. In other cases like installation the Antivirus software needs to be temporarily disabled. It has been reported that Webroot Antivirus required uninstalling before a successful installation would occur.
