Image / logo requirements for .XML receipts

Article Number: 36 | Rating: Unrated | Last Updated: Mon, Aug 18, 2014 at 4:50 PM

Summary: ImageÂ / logoÂ requirements for .XML receipts **Solution:**   The image must be located in the **System/ Images** folder on the server. The image must be a bitmap (.bmp) image. The bitmap should be saved as a 256 bit color file. The image must be a size that will fit on the receipt. An OPOS driver must be used when printing the form. GOPOS drivers will not print images.
