### Cause:

Font size selected for the CPSQL user is too large.

### Solution:

- In **Setup / System / User Preferences / User Interface** select a smaller font size.

-or-

- In Windows, change to a smaller font size in the **Control Panel / Display Properties**. The suggested DPI is 96 for non-Citrix environments (Control Panel / Display Properties / Settings / Advanced\*). \*This path may vary depending on the Operating System.
